MEMORANDUM TO THE EXECUTIVE DIRECTORS
INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

Request for Inspection

India: Andhra Pradesh Road Sector Project (096021) and National Highways Interconnectivity Improvement Project (121185)

Notice of Non-Registration

Summary

1. On December 18, 2015, the Panel received a Request for Inspection sent by community members from several localities in East Godavari District of the State of Andhra Pradesh, India, claiming harms caused by the involuntary resettlement in the context of the widening of National Highway 216, allegedly financed by the World Bank. After conducting its due diligence, the Panel determined that the alleged harms are not linked to any projects or any other operation supported by IBRD or IDA. The Panel therefore decided not to register the Request.

The Request

2. In accordance with paragraph 17 of the Resolution establishing the Inspection Panel (the “Panel”), I hereby inform you that on December 18, 2015, the Panel received two Requests for Inspection, followed by 28 additional ones (collectively referred to as “the Request”), sent by community members from Amalapuram, Anathavaram, Bhatnavili, Bodasakurru, Chippalapalem, Peruru, Yanam and other localities in East Godavari District of the State of Andhra Pradesh, India. The Request claims harms to the local indigenous community caused by the involuntary resettlement process implemented in the context of the widening of National Highway 216 (“NH 216”, formerly known as NH 214), allegedly financed by the World Bank.

3. The community members (the “Requesters”) from the affected villages submitted the Request on behalf of over eighty affected persons. One of them alleged “hundreds of thousands of innocent poor victims” will be forcibly relocated because of a rerouting of a road into areas where they have their dwellings as a result of the widening of NH 216. They state that they are

---

very poor and are “likely to suffer harm as the World Bank not recognized the rights and interests of several indigenous people and the harm caused to us.” Some of the Requesters asked that their identities be kept confidential.

The Projects

4. The Andhra Pradesh Road Sector Project is a specific investment loan approved on October 15, 2009. Total project cost is approximately USD 550 Million, out of which the International Bank for Reconstruction and Development (IBRD or the “Bank”) is financing USD 264 Million.

5. According to the Project Appraisal Document, the project’s development objective is “to provide better quality, capacity and safe roads to users in a sustainable manner through enhanced institutional capacity of the Andhra Pradesh government in the road sector.” One of the project’s components comprises two activities designed to upgrade and maintain the core road network including: (a) upgrading about 429 km of priority state highways (284 km in Phase I and 145 km in Phase II) under public sector financing; and (b) maintenance of 6,241 km of the core road network. The project does not support works on National Highways (including NH 216), which belong to a different road network than State highways.

6. The National Highways Interconnectivity Improvement Project (NHIIP) is also a specific investment loan, approved on October 29, 2013. Total project cost is approximately USD 1,146 Million, out of which the Bank is financing USD 500 Million.

7. The Project Appraisal Document for the NHIIP states that the project’s development objective is “to improve the National Highway network connectivity to less-developed areas and low-income states (...)”. According to this document, the civil works will benefit five states: Bihar, Orissa, Karnataka, West Bengal, and Rajasthan. The NHIIP does not support road-widening activities in Andhra Pradesh.

Concerns Raised in the Request

8. The Requesters allege that the World Bank is supporting the road-widening activities on National Highway 216. They state that the planned road design includes alternative routing that are badly designed. They also state that along NH 216 there is “abundant straight line [with] freely available paddy fields vacant.” However, instead of using such vacant fields, the design shows “roads turn / twist either 'Z' Curve or 'S' Curve” with the expectation that it would encroach on their assets and result in their displacement.

9. They also claim that this design is based on a 2,010 survey which does not adequately reflect actual land-use along the road. They add that the road works were not awarded the required environmental permits.

10. Some Requesters state that they are of the “vysyas” cast, while others state that they are “backward class.” They add that some houses are already marked for demolition, and that

2 The Arya Vysyas are a Trading caste of Southern India, who primarily spread from Andhra Pradesh to other parts of Southern India, mainly in Tamil Nadu and Karnataka. The community has traditionally been engaged in business or trade.
the four-lane alignment will cause loss of livelihood to various indigenous people, including Dravidian and Settibalija, which is against World Bank policies.

11. They also state that after complaining to the competent authority and the local Member of Parliament, they were told, "go and tell the World Bank." They urge the Panel to "save our lives, our relocation, our livelihood, the integrity and sovereignty of the country (...)."

Panel's Determination

12. In accordance with its Operating Procedures, dated April 2014, immediately after receiving the Request, the Panel issued a Notice of Receipt on its web site. The Panel conducted its due diligence by reviewing the information contained in the Request and Project documents. The Panel met with Bank Management on January 15, 2016, to seek corroboration of the results of its due diligence. During the meeting, Bank Management clarified that the World Bank is not financing the widening of NH 216 and shared with the Panel an email letter from the Andhra Pradesh Road Development Corporation, confirming that works on NH 216 are not supported by the Bank project it is implementing.

13. The Panel determined that neither of the Projects are financing road works on the National Highway NH 216, and therefore concluded that the Request does not meet all of the admissibility criteria for Registration. In light of the foregoing and in accordance with the Panel Resolution, its Clarifications, and its Operating Procedures, the Panel is not registering the Request for Inspection.

14. The Panel notes that, if in the future, the road mentioned in the Request comes to be supported by Bank financing, the Panel would be in a position to reassess the existence of a plausible link between a Bank-supported Project and the alleged harms. Hence, in such a case, the Requesters retain their right to re-submit a Request for Inspection concerning the issues raised.

Yours sincerely,

Gonzalo Castro de la Mata

International Bank for Reconstruction and Development
Request for Inspection
Dear Sir/Madam,

I have no words to express my regret to your kind perusal to place the statement of facts about the severe harm being done to my life, my family and my entire community of the indigenous people.

When sir Arthur Cotton visited this region of famine, he constructed a dam on the river Godavari and made this peninsula as a rich fertile belt. Otherwise people used to sell their children for the alms. Cotton as a God gave us food and life. But the greedy politicians told all lies to the World Bank and deputed all alcoholics and drug addicts, untrained civil engineers holding fake degrees and joined the M/s Feed back infra being the appointed surveyors of National Highway authorities of India and you can understand the plan how badly they twisted the route map of the NH 216.

As a result entire region is suffering and do not know how to life. Hence being a senior citizen and already got a stroke because of this sad forcible relocation news, my wife also suffered severe heart stroke, and are going to die just to appease the World bank by blind rulers of India and the sleeping world bank Representative in New Delhi.

I am not angry on you, almost it is my suicide note. So I beg your esteemed selves to kindly air dash to India and visit the village and know the heart beat of the people. Our village namely Anathavaram, the people elected civic head already passed a resolution stating that to lay the NH 216 or what ever, through the freely available Government Land for which they have given a nice solution map in which green color marking is a vacant Government land. Red color is being drawn by the drug addicts of M/s .Feed Back infra.

Please save our lives from this forcible relocation and losing our livelihood.

thanking you
yours sincerely

Anathavaram village
To,

EXECUTIVE SECRETARY,
The inspection panel,
1811 H street NW MSN 10-1007, "Washington D.C. 20433, USA.

I, Sanaboyina Bhavani Sankaram, Resident of D.No. Anathavaram village,
Mummidivaram Mandal, E.G.Dt.; A.P.

Adhar card Ration card No.
Social status : Indigenous Back ward caste Hindu

I am likely to suffer, harm as the World Bank not recognized the rights and interests of
several indigenous people and the harm caused to us, as we are, forced to relocate by the
National Highway authority of India's alignment of four line project for NH 216 in East
Godavari District Andhra Pradesh India supported by World Bank funds.
2. My livelihood and health will suffer severely due to forcible relocation as I am living at the above address and used to earn my lively hood by establishing my RCC building for renting purpose, being a senior Citizen, retired pensioner, partially paralyzed. Affecting property:- a Compound wall, 21 Coconut trees, a well, Borewell with elec. Motor, Septic tank, Neem tree, Medicinal plant

3. The four line alignment for the Highway project involves relocation, forcible evacuation and loss of lively hood of various indigenous people, which are against the World Bank operational policies laid down in financial projects.

4. The objections of evacuators were not considered by the competent authorities and not informed To the World Bank despite of several protests and written representations made by us. So I request you to inspect our area immediately in R.S.No. of Anathavaram village, Mummidivaram Mandal, East Godavari District, A.P state, India.

Signature and address.

I, [Name], Resident of [Name] Anathavaram village,
Mummidivaram Mandal, E.G.Dt., A.P.

Adhar card No. [No.] Ration card No. [No.]

Social status: Indigenous Backward caste Hindu

Complain as follows:

I am resident of Anathavaram village, Mummidivaram Mandal, E.G.Dt., A.P. Now Highway authorities for four line alignment of NH 216 and for laying Anathavaram bypass Road going to relocate us by demolishing my property. They are openly proclaiming in the village and in newspapers that we are surrendered our properties to them and submitted papers. But it is not correct. We oppose the same till our last breath. They gave paper notifications with our names in the News papers. They did not follow any land acquisition procedures. They did not procure any land to relocate us. They did not announced the compensation package for the forcible evacuators. All the people are panic that they will be evicted over night mercilessly by use of Bull dozers.

The above acts of the Highway authorities and Government officials are against the principles of natural justice and against the guidelines of the World Bank, who financed the Highway project alignment.

So I request the station house officer to enquire into the matter and register my complaint against the wrongdoers and save us from injustice.

An appeal to the Inspection panel from a world bank project victim in India

Name of the Victim: Anathavaram Village, Mummidivaram mandal, E.G.District, (A.P) state, India

Dear Sir/madam,

Sub: Ghastly human rights violation by Indian Authorities on the innocent Anathavaram village, forcible relocation for NH 216 high way/bypass, all the M/s. Feed back infra employed civil engineers are not with real certificates, they are with fake degree certificates, there is no inspection or cross checking on them, they messed up entire highway plan, Appealing for re-survey -requesting, regarding.

Sir,

I humbly wanted to place the almost suicide note of us at your lotus feet. We are all indigenous people of India. Sir Arthur Cotton a British Royal engineer arrived from UK and constructed a dam here in 1850 saved our forefathers from famine death. Now like devils the sleeping world bank Indian representative is playing with our lives and pushing back to the ages of 1800 before famine conditions.

The competent authorities of land acquisition, The Member of Parliament, the Indian Government almost treating as dogs, even still worst than dogs, and only giving us the written reply, that "the world bank forced them to lay the NH 216 plan through the villages and towns by displacing the people mercilessly and people to forego their livelihood.

Our honorable civil village, democratically elected panchayat village head, unanimously passed a resolution stating that the NHAI can lay the highway/bypass as an alternative using the abundantly available vacant Government land right in our village adjacent to the proposed curve plan, which is shown in red, and alternative straight road shown in green in the attached map.

The NHAI deputed M/s Feed Back infra, is a Back stab on the Humanity and mankind. For your kind surprise the NHAI, the Roads and Buildings departments eminent Engineers breaking their heads, that how nasty plans that M/s. Feed Back infra done on the earth. The world bank representative who got two eyes his body if visited this Anathavaram village, he will come to know what a bad name Indian Government is earned to the World Bank in India.

off course we are with angry, but the Competent Authority Mr. Markhandeyulu, and the local MP, Dr. [Name], sir, told us, "Go and tell the world bank" So now we are falling on your feet sir

thanking the world bank in anticipation

yours ill fated victim

Anathavaram village

U.S.A

Dear Sir/Madam,

Sub: Human rights violation and forcible relocation by the world bank. Severely affecting livelihoods, Government/Competent Authority is totally doing Monkey business between World bank and victims. World record Bribe changed hands for changing of Initial NH 216 Alignment every where. Please Order Interpol inquiry-

Ref: http://eastgodavari.nic.in/nh216/38.MUMMIDIVARAM.pdf

Expressing the unhappy and sad Christmas of 2015 to me, my family, neighbors, entire church members and untouchable community of India, Because the Indian Government's Competent Authority Mr. [Redacted] is a dictator and incinerated all our repeated requests in registered post to his office, and telling all lies to the Central Government subsequently to the world bank. At the same time, announcing in all the meetings and sending message to his sub ordinate officers, to threaten all the victims, that if they do not give away the properties at the cost of the victims lives, then Indian Government will send army to relocate them. Thus massive human rights violation, and day light robbery is being happened in India to wards us. Abundant vacant paddy fields are there belonging to upper caste Indians, through which if the roads lay by the NHAI, it will be straight and time saving. The Landlords are requesting them to lay the roads through their fields because the land value will be multi folds if the roads passed through their lands. May be the bargaining bribe money is not settled, so they opted the plan of initial attempt and turned /aimed the same map straight head on collision to our church, RCC houses, Christian cemetery.

All along the NH 216, World Record ,demand creation for bribery nicely planned by the NHAI authorities, (Even your children of the Kindergarten school level, if show them the google map and vegetation and concrete building( dwellings), they will tell you , "Dad, why to waste this many millions of dollars of the world bank funds /loan to NH 216? since it is World bank's money , why world bank can not ask the Government of India, for better reasons, why do not order, an in camera survey again and why the Competent Authority undertake victims grievance in in camera interviews in webcam /video conference where
world bank authorities can view them.

Any Child can judge, if they compare the original NH 216 maps, and the Maps they submitted to world bank.

in Bhatnavelli village, it is "Z" curve. In Anathavaram Village it is "S" curve, in mummidivaram village also many curves.

Why?
Mr. [redacted] told the bull shit, to the World bank, that the farmers are the vacant paddy lands for the laying of straight NH 216 are reluctant.

The blatant secret, and truth, is the vacant paddy fields owners/land lords are eager to give their lands because if the NH 216 passes through their paddy fields, the either side of the roads lands real estate value will be multi folds.

If any vacant paddy fields owners gave bribe to Mr. [redacted] the Roads and Highways Minister of India, they diverted the alignment through the paddy fields.

suppose If I pooled some 5 million Indian rupees and gave the bribe to Mr. [redacted] and the NHAI (National Highway Authority of India) and the Local Member of Parliament Dr. [redacted], Surely they would have changed the alignment through the read side paddy fields.

For example, the alignment of Thatipaka village,

http://eastgodavari.nic.in/nh216/49.THATIPAKA.pdf

for the above village, M/s. Feed back Infra surveyors, stayed in the 3 star hotel

http://www.somisettylandmark.com/

and funny and jovial surveyors of M/s. Feed back infra, drawn the maps initially through the Land mark hotel, in which, total land Mark 3 star hotel will demolished.

So the Lank Mark hotel owner approached the nearest paddy fields owners, and convinced if they give bribe of 80 million Indian Rupees bribe, then the alignment will pass through their fields, thus they get high sky prices for their highwayside/road side lands. Then they got lured and collected 80 million Indian rupees and gave that money to the 4 parties 1) Mr. [redacted] The Indian Highways and roads Minister, 2) Dr. [redacted], Member of Parliament, Amalapuram Constituency, 3) NHAI authorities 4) Mr. [redacted], the Competent authority to displace, relocate, kill torture any Innocent Indian.

For 2 miles straight plan, they prolonged it for 11 miles. This is the justice been done to untouchables in India. Land mark hotel owner and benefited farmers are from upper caste in India. Mr. [redacted] is from Upper caste and Mr. [redacted], the Minister is from Upper caste.
This is open secret. People who pooled money and gave bribe, their alignment changed. The people like me who cannot pool the money and give bribe, their lives ruined. It is not a secret plan. Now you can see from the Google. Even Mr., his Indian wife is also managed. Now If you are kind enough to order the Survey again, because is it world bank money. You are not stopping the roads, Please do not stop funds to our country. But if you want to know how many lives being ruined, (my only daughter who is in 10th grade, will become mad and beg on the streets, if my house been collapsed in so injustice way) So I am telling you the truth.

People are warned strictly by Mr., the Competent Authority, if they do not sign with willingness award certificates signed blank to them, they will be kept in jail.

yes, it is true. Please take the help of Any Interpol or CBI. I am an ordinary poor man. I cannot buy the Ministers and Member of Parliament of Amalapuram. He is now Billionaire with this NH 216 project from Kathipudi to Digamarru. First of its kind in the world by the world bank funds.
Dear sir,

Ours is Jayalaxmi Travels, I am self employed youth, living by running Train and bus ticketing services. A respected gentleman from Anathavaram village here approached me to arrange translation and email to you some of his appeal, as he is losing his Rice mill, and other properties etc by world Bank NH 216 project. Hence I have taken charges for getting his appeal translated by an English Lecturer and emailing it to you, have charged 20 Rupees from him. If you give any reply, surely I will take the print out and hand over to them.

Quote:

Our Dearly beloved God
Dr. Gonzalo Castro De La Mata
Chairman
Inspection Panel
World Bank
Washington DC, USA

Dearest God,

Ref: http://eastgodavari.nic.in/nh216/41.ANANTHAVARAM.pdf

You are our God and you have to save our lives.
* I am belonging to the Vysya Caste from which our father of the Nation Mahathma Gandhi hailed from.

* Our fore fathers gave all their lives for the freedom of India. They gave us integrity and perfectness in genuine business as inherited property.

From zero level, we have worked hard and established a rice mill and running it for two generations.

* We have begged our Member of Parliament and caught the feet of the M/s, Feed back infra to use the Straight line Government land to use the highway/bypass that is NH 216, But they
gave Nelson's eye towards us. We had been to Delhi and caught the feet of Mr., the Highways minister of India, but he told us that as per the World Bank guidelines, we have to vacate the villages, and we should go orphaned, and die with hunger.

* The 1956 Highways act, is a legislature act, to which all the patriotic Indians gave their lands like Bhoodan movement. Because Indian got independence in 1947 and ever since India in dire need of roads in those days, so the Patriotic parliamentarians have done the legislature act and clearly written that courts should not talk and courts just to close down their eyes and mouth.

* Now the present Competent Authority, The Indian Highways minister, The Local Member of parliament, the Indian representative of the World Bank are just dreaming that Supreme Court of India have got no rights to issue orders for resurvey. When country, its people are going to die because of the corruption, implemented by the Indian Authorities, the Supreme Court of India can use the anti corruption act and order for resurvey.

* Recently oath taken Chief Justice of India have given his maiden speech stating that no citizen of India should live in fear as long as Courts and legal system is vigilant and peoples rights savers. The Supreme Court Judge expressed his fear that Indians are living with fear from the Government.

* The President of India in his speech to the nation stressed, that "Swachcha Bharath" (a cleanliness program) does not mean only to clean the litter on the street, but the Indians should clean the litter in their hearts first.

* Our democratically elected village head, Mrs. shocked at the road plan of M/s. Feed back infra and in immediately she started pursuing with the competent authority, and Competent Authority behaved like a dictator. Then the village head passed resolutions in the Panchayat (village administrative office) in 2014 and have duly submitted to the competent authority. But Competent authority says, he can do anything and play with lives.

* We have tried to meet the NHAI authorities, the Minister Mr. to explain the plight of the entire villagers and victims. They struck to the point that as per 1956 NHAI act, a competent authority to do anything he lies, like relocation, affecting the livelihood etc etc. But if you are kind enough to read the 1956 Highways act, it reads very clear in our favor that they have to announce the compensation price also in newspapers and then they have to take the opinion of the people and the grievances and the same grievances should be forwarded to the Central Government.

* If you are kind enough to constitute a fact finding committee with some foreigners with Telugu interpreters, if you are kind enough to meet each victim of the World Bank, then they will explain so peacefully, they will explain you with tears that no one's plea is attended and no one's grievance is accepted.
* Every where in the en route of NH 216 abundant straight line freely available paddy fields vacant lands are there. But every inch of place, the Feed back infra wanted to displace the people and their lives.

* Now the NHAI authorities and State Government's Roads and buildings Department's engineers started singing new song. "We did not do any sin. All the sin is done by M/s. Feed back Infra." But it is not true. NHAI and competent authorities gave more teeth and horns to Feed back infra the road planning company and by shielding them, earned billions of rupees as bribe.

* We beg you to depute another survey for all the Highways fund allocated plans in the State of Andhra Pradesh. A world record massive corruption will be found to the Inspection panel. We request you to give opportunity to the Ph.d research interns that how the Government rulers and officers in India, purposely spoil the lives of Innocent Indians by using the pretext of the Highways act 1956

Please read the 1956 Highways act

http://www.nhai.org/act1956.htm

* Please ask the Development specialists, that too world class development specialists of the world bank and UNO just to study the psychology of the road map planners and its implementer.

* Please do not cancel the project, though it is full of corruption. India needs roads, But please cancel the survey sir. They did the survey in 2010, but the Competitive authority now says, that survey done in 2012 and will give the 2012 Government value. But is it also a lie to the innocent people. Forcibly they are threatening and forcibly they are taking consent letters and signatures. No human rights. I beg you to cancel the survey and order re survey sir.

thanking you
yours sincerely

Sir,
Most modern first of its kind in the world, the world bank funds are only 65000 crores of Indian rupees, but the inner demand creating political bribe for real estate value creation thus trillions of dollars of bribe. This bribery is entirely organized by the present Government of India and its ruling party.

courts are just dumb and spectators.
Indian Government says, they did the act, so indigenous people, thousands of houses, RCC concrete buildings are being uprooted with bulldozers. compensation is just an eye wash, People have to sell their daughters for prostitution.
Please take it serious and alert the world bank.

Highly confidential and strictly personal.

Highly placed mass corruption, fraud, forcible relocation and pushing the Indian villagers to their 4 Generations back poverty.

Kind Attention to the
President/Chairman
Investigating Panel
Respected Sir,
Subject: In world bank project NH 216 proposed from Digamarru to Kathipudi in the Indian State of Andhra Pradesh, our location is Bhatnavelli, a small village between Amalapuram and mummidivaram.

Our Taluk,/Mandal is Amalapuram, our district is East Godavari

Our Competant Authority is Mr. Additional Joint Collector, Kakinada,

they are going to forcibly relocating us and felling our houses, then receive the 65000 crores Indian rupees in the Andhra Pradesh state account, and then they will instigate us to agitate to prevent NH 216 highways and thus they wanted to divert this world bank funds for the Capital Amaravathi construction

we are like birds with no human rights in India.

How it is a Fraud? yes, its a fraud, and corruption. World bank, asking the Indian Government and its National High way Authority to lay the roads, from the freely vacant available fields where there is no human population and houses. But the survey company contracted by the NHAI , staff not willing to do the survey from the fields and instead they wanted to travel only by car, so they stopped the cars road side and started planing the roads, helter skelter. If it is from fields, it will be a straight roads/high ways. World bank needs that kind of straight roads. But greedy politicians and NHAI officers, and competent authority, minister and parliament members, created a vast demand for the bribe.

Initially they are showing the survey map from the busy housing areas. Then all the housing areas persons will take some bribe and offer them. Then the surrounding paddy field owners will be lured with hike of the prices of their lands, if utilized for real estate, if high way NH 216 layed through their paddy fields. Thus ministers, parliamentarians, Competent authority earned millions and millions of rupees bribes.

Clear example is in "Thatipaka" they planed the survey from Land mark hotel, 3 star hotel. Then the Land mark hotel owner gathered 8 crores rupees bribe from the nearest paddy field owners and paid that money to right from the NHAI roads and highways minister Mr. its open secret.

world bank is against this kind of fraud.

we are very very poor barber community and we can not pay any bribes.

And hence, we on behalf of hundreds of thousands of innocent poor victims whose houses are going to be destructed. We have no option except to commit suicide. If that is the case, we request the world bank to supply poison to all of us and kill. But please do not play with our lives, to make only some section of Indians rich.

World bank not yet released the funds, 65000 crores rupees.WE beg you not to release the funds and please change design, not only our houses but entire design please see that it goes from the abundant vacant paddy fields.

the paddy fields owners are willing ad rather eager to offer their lands.

we are 6 families filing this SOS request to the Inspection panel president to air dash to India and inquire how many crores of bribes, all have earned in Thatipaka and Thimmapuram alignment changing.

our names and Notaries are submitted to your kind perusal

1) Mr. and less Agricultural labor
2) Barber
3) Barber
4) Barber shop cleaning woman
5), Barber
daily wages agricultural labor.

There are thousands of victims who will subjected to forcible relocation.

we have enclosed a news clipping published today in EAnadu, news papers, that how Mr._
telling lies to the victims stating that he will give away money there and then only, in the same news statement, he tells that World bank not yet given the money

Thanking you
yours most obedient innocent future beggars and going to commit suicide
once the houses are forcibly removed under the pretext of development.

And hence, we on behalf of hundreds of thousands of innocent poor victims whose houses are going to be destructed. We have no option except to commit suicide. If that is the case, we request the world bank to supply poison to all of us and kill. But please do not play with our lives, to make only some section of Indians rich.

World bank not yet released the funds, 65000 crores rupees. WE beg you not to release the funds and please change design, not only our houses but entire design please see that it goes from the abundant vacant paddy fields.

the paddy fields owners are willing ad rather eager to offer their lands.

we are 6 families filing this SOS request to the Inspection panel president to air dash to INdia and inquire how many crores of bribes, all have earned in Thatipaka and Thimmapuram alignment changing.

our names and Notaries are submitted to your kind perusal

1) Mr. [name], land less Agricultural labor
2) [name], Barber
3) [name], Barber
4) [name], Barber shop cleaning woman
5) [name], Barber
6) daily wages agricultural labor.

There are thousands of victims who will subjected to forcible relocation

we have enclosed a news clipping published today in EAnadu, newspapers, that how Mr telling lies to the victims stating that he will give away money there and then only, in the same news statement, he tells that World bank not yet given the money

Thanking you

yours most obedient innocent future beggars and going to commit suicide once the houses are forcibly removed under the pretext of development.

Dear Sirs,

I, Dr. borned in Bhatnavilli, Amalapuram Mandal, Andhra Pradesh, India. I am a professor working in a B-School in Hyderabad, India.

Upon my recent visit to my native, I understood the plight of my relatives and other villagers regarding the National Highway Project funded by World Bank causing demolition and destruction in my village.

The content of their agony is presented as an attachment along with few snaps as documentary evidence to authenticate their complaint.

They have apprehensions that they will be troubled by the Government as there is no representative from our community in the Parliament. Therefore, we request you to keep this confidential.

Further, I am forwarding this complaint on their behalf and future correspondence can be made to my mail id. (Copy of my is attached to authenticate my relation to the village.)

Looking forward for a favorable reply.

regards,
Dr.
To
Office of the Compliance Advisor Ombudsman (CAO)
2121 Pennsylvania Avenue, NW
Washington, DC 20433, USA

Dear Sirs,

BHATNAVILLI is a small village, with a rich legacy of more than 300 years, situated 5 km away from the town Amalapuram in East Godavari district in Andhra Pradesh on the road connecting Amalapuram and Yanam (town formerly a French colony before independence and now annexed to Pondicherry state though the surrounding area belongs to Andhra Pradesh state). The name of the village is a gradual degradation of the original name BHATTULA VILLI. (In Sanskrit – A village for Vedic scholars). A temple dedicated to Sakhaleswara was constructed by a Hindu king some 300 years ago and provided land for dwelling and agriculture to Vedic scholars who were made associated with the temple by the king to perform divine rituals. Many religious Sages including Peethadhipathis like Kanchi Parmacharya, Sringeri Peethadhipathi had visited the temple and enhanced the divinity of the Sanctum Sanctorum with their divine power. Some of our ancestors lived in this village were recognized as Gurus to various Hindu Sages and performed Yagnas/Yagams (A ritual involves worshipping divine fire and chanting Vedic hymns enormously) at the temple thus enhancing the divine power of the presiding Deity.

The middle/low income families belonging to a particular community, Brahmins, live on the either side of the road never envisaged that there would be a national highway passing through the densely clustered homes and modernized their ancestral homes with limited means in the recent past. Till 15 years ago the village enjoyed serenity and peace as there was not much traffic on the single lane road connecting the other villages in Godavari delta. Thanks to the Balayogi Bridge on river Godavari connecting Muramalla and Yanam in 2005, some of the temple premises was lost in the mindless expansion of the road from single lane to two lanes and created a bottleneck at the situation of the temple and pond. Also, the increased traffic has affected the lifeline of the otherwise peaceful village very badly.

To add to the woes of the village, National Highways Authority of India (NHAI) with funding from World Bank proposing to convert the existing two lane road as national highway with 4 or more lanes, NH 216, by cutting our houses on both sides of the road and demolishing the temple completely due to bottleneck, albeit the NH 216 was proposed to be laid as a bypass to the adjoining town Amalapuram on the west and Mapalacheruvu village on the east side of the village.

In gist, the ill-effects of the World Bank Funded NH216 are:

- Peace and serenity of the village will be disturbed
- Structural damage to our houses
- Negative impact on our social life
• Belittling our pride and bread maker - complete demolition of the temple
• Encroachment of the water body
• It's is a beginning of the extinction of the village in future
• No play area for our children in front of our houses due to expansion till our bedrooms
• Causes frequent accidents
• Ecological and Psychological impact on people living together for more than 3 centuries

Since this World Bank funded project severely jeopardize our living financially and psychologically, we earnestly request you to stall the idea of aligning the NH 216 over our village. However, as responsible citizens of our country and to become part of the nation building, we pledge to lend our support to this project even if NH216 is aligned over our other lands in the village.

Looking forward for your earnest and positive reply.

Thanks and Regards,
Sd/-
(Representatives of the Village)

Quote:

Because of the World bank’s forcible relocation of the National Highway Authority of India, Year 2016 is an unhappy bad year to all of Indian villagers those who are losing our livelihood and houses and forcible relocation

Kind attention to the
Lotus feet of the
world Renowned Ecologist

Our God,
Dr. Gonzalo Castro de la Mata
Chair person
World Bank’s Inspection Panel,

My God,

I am an Indigenous Indian Hindu, born on the road side to the very very poor parents, no schooling, working as truck driver for 37 years, lived in thatched house, my son studied under kerosene wick lamp, Masters in Science, and my daughter Masters in literature. with much difficulty I could raise my kids with life long hardship as truck driver. Now I could able to build a small RCC house 15 years back, and living with my wife and children in it.

Now world bank came to develop India and Indian roads, for the speedy moment of rich people, in aero plane like cars to reach the destination so fast.

I am truck driver, If you are kind enough to take you with you in your helicopter, I will tell you, how nicely straight roads can be planned in India.
But M/s Feed back infra, planned zig zag roads only through villages. Their fear is if some thing goes wrong, villagers with kind heart go and rescue them. Yes villagers are of kind heart. Now NH 216 a world bank project, marked to my house to remove it 1/3rd of the part and I will be on the roads again with my wife and beg for alms. It is 100% a world bank project. We have news paper clippings. We all people of the PERURU village (off Amalapuram) begged by falling on the feet of the competent authority to lay the roads from the vacant available paddy fields, for which farmers are ready. But Mr the Competent authority of the Government for Land acquisition kicked us away by telling, "world bank ordered us to lay the roads by forcible relocation". As per the 1956 National High ways act of India, there is no courts involvement in this regard the act says. But Ministry of environment, forest, climate change of India has to give clearance to this land acquisition from villages by ruining the ecological balance of India. 80% of the Indians live in 6 lakhs of villages. 20% of the city boys are making the laws in the parliament. They always dream about constructing cities, but now they are sentencing villages and villagers to death sentence by forcibly applying 1956 High ways act. However, our India’s Environment and Forest, Climate change ministry is not giving clearance to such projects of NHAI. I beg you on behalf of PERURU village, (land lords from Perayur in Tamilnadu state came here in 17th century and purchased this village from local land lords, we are the slaves, under those land lords, its a recorded history. The person who can not read the history can not create the history sir) Now with the world bank funds, innumerable funds, our rulers forgot their history and wanted to build smart cities and ruin the villages, thus wanted to ruin the India, entire India. Food supply goes from 80% of population only, we are hard workers. Now World bank is sending us back to 17th century poverty forcibly.

Being an eminent ecologist, Please invite the attention of the Ministry of Environment, Forest, Climate Change of India, to concentrate on totally perishing historical PERURU village and its people and their livelihood and houses.

Please rush your Inspection panel team to Peuru village and not only that please have a glance of all the land survey maps of Feed Back infra, of the project NH 216 starting from Digamarry village to Kathipudi,

Thanking you

Yours obedient slave praying for justice

Mr. Truck driver

unquote: Sir, I am [REDACTED] I will give the print out of your reply to Mr. [REDACTED], victim of world bank project.
I, Laladi Ramakrishna Rao, Mandal, E.G.Dt., A.P.

Social status: Indigenous Hindu

STATE AS FOLLOWS:

I am likely to suffer, harm as the World Bank not recognized the rights and interests of several indigenous people and the harm caused to us, as we are, forced to relocate by the National Highway authority of India's alignment of four line project for NH 216 in East Godavari District Andhra Pradesh India supported by World Bank funds.

Saladi Ramakrishna Rao
1. My livelihood will suffer due to forcible relocation as I am living at the above address and used to earn my lively hood by working as a truck driver for 37 years and could able to construct a RCC House for my wife and children.

2. The four line alignment for the High way project involves relocation, forcible evacuation and loss of lively hood of various indigenous people, which are against the World Bank operational policies laid down in financial projects.

The objections of evacuators were not considered by the competent authorities and not informed To the World Bank despite of several protests and written representations made by us. So I request you to Inspect our area immediately in R.S.No., D.No., Perurupeta, Y. junction, Amalapuram Mandal, E.G.Dt., A.P. state, India, Mobile phone No.

Date:

List of attachments;

1. Objection made to competent authority          Photocopy
2. Adhar card in my name.                  Photocopy
3. Land Acquisition Notification by competent Authority       Photocopy

We do authorize you to disclose our identities.

ATTESTED

NOTARY
To,

The Station House Officer,
Amalapuram Rural,
Amalapuram

I, [Name redacted], Perurupeta, Amalapuram
Mandal, E.G.Dt., A.P.
Adhar card No. [Redacted] Ration card No. [Redacted]
Social status: Indigenous Hindu

Complain as follows:

I am Resident of Perurupeta, Y. junction, Amalapuram
Mandal, E.G.Dt., A.P. Now High way authorities for four line alignment of NH 216 and for laying Amalapuram bypass Road going to relocate us by demolishing my property. They are openly proclaiming in the village and in newspapers that we are surrendered our properties to them and submitted papers. But it is not correct. We oppose the same till our last breath. They gave paper notifications with our names in the News papers. They did not follow any land acquisition procedures. They did not procure any land to relocate us. They did not announce the compensation package for the forcible evacuators. All the people are panic that they will be evicted over night mercilessly by use of Bull dozers.

The above acts of the Highway authorities and Government officials are against the principles of natural justice and against the guidelines of the World Bank, who financed the Highway project alignment.

So I request the station house officer to enquire into the matter and register my complaint against the wrongdoers and save us from injustice.

I, Aithabathula Hemalatha
3) My livelihood will suffer due to forcible relocation as I am living at the above address and used to earn my lively hood by establishing my house and my profession since three generations.

4) The four line alignment for the High way project involves relocation, forcible evacuation and loss of lively hood by various indigenous people, which are against the World Bank operational policies laid down in Financial Projects.

5) The National High ways Authority not getting any prior permission environment Ministries, pollution Board and Forest Ministry in India and Bypass alignment plan prepared through poor down trodden people residential houses and caused damage for our health.

6) The objections of evacuators were not considered by the authorities due to upper caste political leader's influence and corruption and not informed to the World Bank in spite of several protests and written representation made by us. So I request you to inspect our area in R.S. Residential House D.No. of Mummidivaram village of Mummidivaram Mandal, E.G. Dist of house site, Andhra Pradesh State, India.

Therefore we pray the Hon'ble Executive Secretary please to order to inspection victim area and found my difficulties as human being and protect my natural justice.

My God,

Sub: Please view my photos of my family and save our lives in Bodasakurru village, Project ID:P096021

Project Name: Andhra Pradesh & Telangana Road Sector Project
Operations: IBRD

Bank Approval: October 15, 2009

-- A
tBodasakurru village, East Godavari District, Andhra Pradesh in India, its NHAI project.

National Highway Authority of India.

My location where my house and lively hood is being destroyed by the world bank project.
R.Survey number: [Redacted]
Resident of Door Number: [Redacted]
address Near vinayakia temple
Bodasakurru Palem, Bosakurru post, Allavaram Mandalam, E.G.District A.P India and mobile contact number: [Redacted]
My prayer:

We do not know that we have to complain to world bank. One Mr. told us to send the Request for inspection to you sir. So I am sending this mail through local cybercafe.

For over all this project, Mr. sir, is the Competent authority to organize the land survey deputed by the Government of India and the Government of Andhra Pradesh state.

we have fallen on the feet of sir, to change the direction for a single degree, which by using the freely available Government vacant land just in front of my house. For this in the attached photos, me and my wife stood by raising our hands up. But Mr. sir told , that there is no stay from court by 1956 Indian High ways act.

But Mr. sir is not having any idea about environmental protection and environmental clearance. He is just enthusiastic and sincere officer, he wanted to fell our houses and lay the roads.

He does not know that Indian Ministry of Environment, forest, climate change, has to give "Environmental clearance " to Land acquisition for this Project. I beg your esteemed selves to kindly consult Mr. to see how they will give environmental clearance to this project. 216. We are small, and small people, poor people. How can we go and complain to all these offices. It is your kind courtesy to over see the all the "environmental clearances" issued to various high ways NHAI projects in INdia.

NHAI already scrapped 6 each High way projects each in Kerala and Goa states.

God, you are a pioneering Environmentalist in the world.

Please ask the Indian Environmental minister sir, kindly to study the land survey of NH 216 which is "L" and "F" curve in Peruru and Bodosakurru villages, which will subject the villagers to accidents and sheep and milking cows to death. Perhaps the Environmental ministry will grant "clearance " with out doing any study. Perhaps world bank is also pumping billions of dollars developmental funds to Ministry of environmental, forests, climate change, for protecting environment of India. If this is the supervision of Ministry of Environment of India. Please ask the minister sir, to protect our villages

thanking you

yours most obediently

the world bank project victim

Mrs. Poos house wife

of a open heart surgery patient.

Washington D.C.20433,USA.

I [redacted] w/o [redacted] Age 45years R/o D.no Main Road,Bodasakurru,Allavaram Mandal, E.GDt.,A.P.  

Adhar card No.[redacted] Ration card No.[redacted]  
social status:Indigenous settibalija Hindu back caste state as follows:

I am likely to suffer,harm as the World Bank not recognized the rights and interests of several indigenous people and the harm caused to us,as we are, forced to relocate by the NATIONAL HIGHWAY authority of India's alignment of four line project for NH 216 in East Godavari District Andhra pradesh India supported by World Bank funds.

1.My Livelihood will suffer due to forcible relocation as I am living at the above address with a house wife and in my RCC Daba House.

2.The four line alignment for the High way project involves relocation,forcible evacuation and loss of lively hood of various indigenous people,which are against the World Bank operational policies laid down in financial projects.

The objections of evacuators werw not considered by the competent authorities and not informed To the World Bank despite our several protests and written representations made by us. So I request you to Inspect our area immediately in R.S.No. [redacted] D.No.[redacted] Main Road, Bodasakurru,Allavaram Mandal, E.GDt., A.P., India, Mobile Phone No. [redacted]

Here I am enclosing the photographs of my existing building and the empty land adjacent to my house which can be used to develop as NH 216 which was proposed by the Government
